linkedin.com/in/jeevan-shine-708377372

SUMMARY

First-year Computer Science (AI) student at Joy University through NIAT who learns by building real projects and putting them online. I build web apps, installable PWAs and AI vision tools, use modern AI coding tools to move fast, and publish my work on GitHub. Looking for hackathon teams, project collaborations and learning opportunities.

EDUCATION

B.Tech, Computer Science & Engineering (AI) — Jul 2026 – Present
Joy University × NIAT, Nagercoil, Tamil Nadu

NIAT Bootcamp — Before college
AMET College, Chennai

PROJECTS

Event Radar LIVE — github.com/jeevanxx/Event-Rader

- Installable web app (PWA) that tracks hackathons, workshops, meetups and competitions across Tamil Nadu, Kerala, Bengaluru and online.
- Built and deployed on GitHub Pages so it works on any phone or laptop.

Tech: JavaScript, HTML, CSS, Service Workers / PWA, GitHub Pages

CampusPilot IN PROGRESS — AI vision project

- AI vision assistant to help visually impaired students navigate campus: the camera detects objects and obstacles, and an AI agent turns detections into spoken guidance.

Tech: React, Vite, FastAPI, YOLOv8, LangGraph

Focus Forge — github.com/jeevanxx/focus-forge-hq

- Productivity and discipline web app to help users focus and build better habits.

Tech: TypeScript, React, Vite, Lovable

CampusAid v2 — github.com/jeevanxx/campusaid-v2

- Rebuilt step-free campus guide for Joy University, focused on map-based accessible routes and a cleaner design.

Tech: JavaScript, HTML, CSS

Task Tracker LIVE — github.com/jeevanxx/Task-Tracker

- First project, built from scratch: add, edit, complete and delete tasks, filters, task counter, dark mode, and tasks saved between visits with localStorage.

Tech: HTML, CSS, JavaScript, localStorage

Personal Portfolio — jeevanxx.github.io

- Portfolio that automatically lists my GitHub projects using the GitHub API, with a Three.js 3D scene and six switchable themes.

Tech: JavaScript, Tailwind CSS, Three.js, GitHub API

CERTIFICATES & EVENTS

Vibe Coding Workshop 2026 — Certificate of Participation — 30 Oct 2026
StartupTN × Google for Developers · Noorul Islam Centre for Higher Education, Kumaracoil · ID: VCW26-7R5XM

SKILLS

Languages	JavaScript, TypeScript, Python, HTML, CSS
Frameworks	React, Vite, FastAPI, Tailwind CSS, Three.js
AI / ML	YOLOv8 (object detection), LangGraph (AI agents)
Tools	Git, GitHub, GitHub Pages, Claude Code, Google Antigravity, Google AI Studio, Lovable, Notion
Spoken languages	English, Tamil, Malayalam

INTERESTS

AI vision & agents, web apps and PWAs, hackathons and tech workshops. Outside tech: football, gaming, reading and philosophy.
